

# EDUCATION LEARNING

## 2024 KNOWLEDGE OPPORTUNITIES

### ACCURACY MATTERS – NAVIGATING THE NEW MDS LANDSCAPE

The MDS is a critical nursing facility assessment tool that can directly impact resident quality of care, reimbursement, survey outcomes and your publicly posted quality measures. During this three-day virtual workshop, attendees will take a tour of all MDS sections, including review of the steps for assessment of each section, common coding errors and review of systems and processes to better provide for MDS completion accuracy. The final day of the workshop will include the care area assessment (CAA) process and its relationship to care planning, and an overview of the Patient Driven Payment Model (PDPM).

**Earn 12 CEUs upon completion.**

Classes : February 7-9 | April 10-12 | July 10-12 | September 18-20 | December 11-13  
Time: 9am - 1pm PCT

### CARE AREA ASSESSMENT (CAA) REVIEW

New and veteran Oregon nursing home staff have indicated they need more opportunity to examine best practices for improving assessments and developing comprehensive care planning that ensures the health and well-being of their residents. This day-long workshop, designed for the entire interdisciplinary team, will provide a comprehensive review for each of the 20 Care Area Assessments (CAAs), which establish the framework for developing, reviewing and revising residents' comprehensive plans of care. **Earn 4.5 CEUs upon completion.**

Classes: March 4 | May 2 | November 7  
Time 9am - 1pm PCT

### NURSING PRACTICE IN COMMUNITY BASED CARE (CBC)

The Leading Age Oregon Nursing Practice in CBC course provides the most updated information related to regulatory compliance and standards of practice for nursing and health services in CBC. The aim is to assist learners in understanding the "systems perspective" related to operations and practice. The subjects during the first two days include the nurse role in CBC, change of condition and monitoring, evaluation and service planning, RN delegation, medication systems, understanding supportive devices, and abuse and neglect investigation and reporting. On the third day, the focus is on training and supervision, infection control, quality improvement, the survey process, and nurse well-being. Daily assignments allow the learner to do a deeper dive into the material. Learner dialogue during the course promotes a shared experience and community. **Earn 21 CEUs upon completion.**

Classes: Jan 30 - Feb 1 | March 13-15 | June 25-27 | September 10-12 | November 19-21  
Time: 9am - 2pm PCT
