NURSING PRACTICE IN COMMUNITY-BASED CARE

Training for Nurses in ALF's, RCF's, Memory Care

This CBC course offers nurses and other professionals a regulatory and system-based approach to understand nursing practice in community-based care. The course includes three days of interactive learning related to resident-care systems and processes in assisted living, residential care, and memory care. The course assignments are designed to improve comprehension of the content.

The online CBC course includes assignments and offers up to 20 CEU's.

OBJECTIVES

- The role of the RN and LPN in community-based care
- Change of condition and monitoring
- Medication systems

NURSING PRACTICE IN COMMUNITY-BASED CARE

Faculty

Cynthia McDaniel MSN RN is the CEO of ElderWise Inc and NurseLearn. With over three decades of experience in elder care and assisted living, Cynthia brings a wealth of expertise to her consulting and education work. She specializes in operations and clinical consulting, and community-based care education.

Kari McDaniel MSN RN CNE is a Senior Consultant with Elderwise Inc. Kari has been a nurse for over 20 years. Her community-based care experience includes care management, home health, assisted living and memory care. She is a certified nurse educator and has a dynamic understanding of maximizing the learner experience.

WHO SHOULD ATTEND

It is recommended that ALL disciplines (Nursing, Social Services, Activities, Dietary, Administration) attend this class as there are interdisciplinary overlaps for all assessments. In addition, all staff will benefit from better understanding how to conduct comprehensive assessments.
