### OUTLINE

Long-term care providers have been on the frontlines during the COVID-19 pandemic. This webinar will provide a detailed explanation of CDC guidelines for housekeeping. This is a great opportunity to enhance and refresh the knowledge base of housekeeping staff. Gather your team, especially housekeeping, and hear from an expert with 20 years of housekeeping experience, specifically in long-term care.

### OBJECTIVES

- Explain how to properly clean and disinfect their nursing home per CDC guidelines.
- Summarize how to determine what should be cleaned and disinfected and how often (especially during an outbreak).
- Describe how to properly clean and disinfect surfaces.
- Identify how to access contact time.
- Discuss how to stop the spread of infectious diseases.
- Execute correct dilution ratio for various chemical agents.
- How to ensure your housekeeping department is cleaning and disinfecting your facility consistently and effectively.

### FACULTY

**Ralph Peterson**, CEO and Founder, The Standard Health and Rehab, the #1 Training Program for housekeeping & laundry management in long-term care facilities. With 20 years of housekeeping experience, specifically in long-term care, Ralph is the leading expert. He knows what state surveyors look for during inspections and knows how to train the trainer. Most importantly he knows how to lower overhead, reduce waste, and maximize your profits. He is also a #1 Best-Selling Author, professional keynote speaker and a highly sought-after management development coach.

### WHO SHOULD ATTEND
