- Program Timeline
- Information on Omnicare and CVS Health

**Questions?** Please contact [CovidVaccineClinicsLTCF@CVSHealth.com](mailto:CovidVaccineClinicsLTCF@CVSHealth.com)

**Thank you for selecting CVS Health as your preferred pharmacy provider for COVID-19 vaccine administration!**

Since March, CVS Health has led the fight against COVID-19. Now, we're ready to leverage our network of retail pharmacies and our 30,000 pharmacists to administer the vaccine. The purpose of this guide is to walk through the COVID-19 vaccination clinic journey and what to expect throughout this process.

**We come to you!** Our pharmacy teams will administer COVID-19 vaccinations through our on-site clinic model, making it easy and convenient for your facility's patients and employees to get vaccinated against the coronavirus.

the CVS Pharmacy team member the day of your clinic. The information collected on the consent forms will also help streamline completion of the Multi Patient Upload form (more information in Section 4).

- After administration of the vaccine, the CVS Pharmacy team member will provide one copy of the consent form to the patient, as well as one copy of the form to the facility for documentation.
- Posters can be filled out and hung up around the building to assist with publicizing the clinic event and increase awareness to patients and employees when they can expect to receive their on-site vaccinations.
