

ROLE OF THE NURSE NURSING PRACTICE IN COMMUNITY BASED CARE

3 Day Webinar from 9am - 2pm Pacific Time
March 17-19 | June 30-July 2 | Sept 8-10 | Nov 10-12

Overview

Leading Age Oregon and Kari McDaniel MSN RN CNE, are holding the Community-Based Nursing Class as a three-day webinar. All classes will be held from 9 am to 2 pm with pre and post-assignments in order to provide up to 20 CEU's.

The class will provide the most contemporary information related to the standards and requirements in Community Based Care and to assist the participants in understanding the "systems perspective" when relating to the standards and requirements. The program includes two days of didactic/lecture material and exercises/demonstrations related to the systems and processes required for a quality operation as well as the overall requirements and regulations, safety and infection control, and the nurse's role in training and forwarding the facility systems and processes. The third day is devoted entirely to quality and the survey process. The pre and post assignments are designed to improve comprehension of the subject matter..

COURSE INSTRUCTOR

Kari McDaniel is a registered nurse with over 20 years of experience caring for others. Kari began her nursing career in the acute care setting, transitioning next to nursing education and then community-based care home. Her community-based care experience includes care management, home health care, assisted living, and consulting for assisted living and memory care facilities. Kari graduated from Oregon Health Science University with a Bachelor of Science in nursing and holds a master's in nursing education from American Sentinel University in 2019. She is a board-certified nurse educator.
